

# Identifying metro Melbourne restricted postcodes

This tool is to help businesses identify metropolitan Melbourne postcodes. **BLUE** are restricted postcodes and **GREY** should be asked whether they are from within a restricted metropolitan zone. Follow our checklist below.

1. Ask for the customer's ID
2. Check the postcode on the ID against the list of postcodes below
3. If the postcode is not highlighted in **BLUE** or **GREY**, then you can have them dine in or proceed with the service
4. If the postcode matches up with those highlighted in **GREY**, you should ask whether they are from a restricted metropolitan zone
5. A list of restricted suburbs and LGAs that fall within the **GREY** postcodes are included over the back. Customers should clarify which one they live in.
6. If the customer is from a restricted postcode or restricted suburb/LGA within the postcode then you must decline to serve them, except for takeaway
