

ATDW STANDS FOR AUSTRALIAN TOURISM DATA WAREHOUSE

It is a digital platform owned by Tourism Australia and the State Tourism Offices (i.e. Visit Victoria) and is essentially a vehicle to showcase businesses, products, events and experiences across a range of online channels (regional websites, state websites and Tourism Australia's website).

WHY IS ATDW IMPORTANT?

ATDW is a powerful tool to cost effectively promote your business to a broad range of potential customers in Victoria, Australia, and across the globe. Having a listing means that not only will your business or event get displayed across multiple channels – and the **High Country App** – your listing is also a 'ticket to play' when any promotional or media opportunities arise.

Listing on ATDW is how your local business gets featured on the High Country Visitor App.

WHAT ARE THE ASSOCIATED COSTS WITH ATDW?

A listing with ATDW costs \$295 per year. That's less than \$1 a day.

This offers exceptional value compared to traditional media, and cost-per-click digital and social advertising.
